

Shiv Kanojiya

Product Designer (UX/UI) · B2B & Enterprise SaaS

Hyderabad, India | +91 96642 22067 | shivkanojiya19@gmail.com | linkedin.com/in/shivkanojiya | shivkanojiya.com

PROFESSIONAL SUMMARY

Product Designer (UX/UI) with 6+ years designing B2B and enterprise SaaS across logistics, fleet, government, and banking-analytics platforms. Owns the full product design lifecycle — user research, requirement gathering, information architecture, wireframing, interaction design, design systems, prototyping, and usability testing — and, uniquely, ships designs into production code (front-end HTML/CSS, API integration, and database). Repeated 0-to-1 delivery of multi-tenant, WCAG-AA, mobile and responsive products used by thousands of users in the field. Fluent in Figma, design thinking, and agile, cross-functional delivery.

SKILLS

UX/UI & Product Design: UX/UI design, product design, user research, usability testing, wireframing, prototyping, interaction design, visual design, design systems, information architecture, user journey mapping, personas, design thinking, user-centered design, B2B SaaS, enterprise UX, dashboard design, mobile & responsive design, accessibility (WCAG)

Design Engineering & Technical: Design-to-code, front-end (HTML/CSS), API integration, database architecture, backend services, user authentication, full-stack deployment, AWS, solution architecture, SQL

Data & AI Tools: Data-driven design, A/B testing, product analytics, Tableau, AI-assisted research, Claude Code, Cursor, Lovable, Notebook LM, VS Code

Design Tools: Figma, Protocie, Principle, Framer, Adobe Creative Suite, Lottie, Rive

Collaboration & Practices: Cross-functional collaboration, stakeholder management, design strategy, design handoff, agile/scrum, mentoring

PROFESSIONAL EXPERIENCE

Product Designer, ROQIT Greenfleet Digital Solutions

Hyderabad, India · Feb 2025 – Present

Lead product designer on India's first OEM-agnostic asset & intelligence platform — multi-tenant SaaS across fleet, logistics, and multi-modal transport; prototype and ship 0-to-1 directly in code.

- RailParcel (South Central Railway / Indian Railways):** Led interaction design from field research to launch — ran requirement gathering and on-ground research; designed a trilingual, WCAG-AA booking flow integrated with CRIS PMS, SBI payments, and four logistics partners. Live across 7 cities and 17 stations — 20,000+ app downloads, 45,000+ consignments, 3× revenue; national press coverage.
- Bobba Express:** Designed and built a first-mile air-cargo logistics platform (customer, admin, and vendor portals + driver app) on the live Emirates SkyCargo API — PRD to production in 3 months; 12 customers and 80 shipments in the first two weeks, 40% repeat bookings.
- Internal CRM:** Designed and solo-built a full-stack, role-based CRM (design, database, back-end, auth, hosting) in 15 days, replacing spreadsheets for four teams.
- Own end-to-end UX across core modules — user research and information architecture through interaction design, prototyping, and production front-end (HTML/CSS + API integration); partner with PMs, engineers, and leadership on roadmap and scope.

Senior UX/UI Designer, Aion-Tech Solutions

Hyderabad, India · Apr 2022 – Jan 2025

Lead designer on enterprise analytics engagements — business discovery through delivery.

- Delivered enterprise analytics products for Schneider Electric, Adani Ports, and Air India — shipped 8+ Tableau dashboards from discovery to handoff.
- Ran business discovery and requirement-gathering workshops with enterprise stakeholders, translating dense operational data into clear, decision-ready dashboards.
- Built and maintained a Figma design system that cut design-to-handoff time 30% and component duplication 60% across concurrent projects.

UI/UX Designer, CRG Solutions

Mumbai, India · Sep 2021 – Apr 2022

- Designed banking-analytics dashboards for Kotak Bank and SBI, restructuring dense financial data into clear, actionable views for relationship managers.

Freelance Design Consultant, Independent

Remote · Apr 2020 – Aug 2021

- UX/UI design for early-stage web and mobile products — wireframing, prototyping, and developer handoff.

UX/UI Designer, BookMyShow

Mumbai, India · Apr 2019 – Mar 2020

- Redesigned the mobile ticket-booking flow end to end, cutting checkout time 30% across high-traffic booking surfaces.

SELECTED PROJECTS

- RailParcel** — Government rail parcel platform digitising Indian Railways' parcel network (interaction design, field research, CRIS / SBI / partner integration).
- Bobba Express** — First-mile air-cargo logistics platform, designed and built end to end on the live Emirates SkyCargo API.
- Internal CRM** — Solo, full-stack, role-based CRM shipped in 15 days.
